

Gople Plug

BIG - Bjarke Ingels Group

LUMINAIRE

- Watt: **5,5W**
- CRI: **80**

DESCRIPTION

The Gople family keeps growing, with new versions dedicated to different lighting design languages.

It now becomes a portable lamp that offers an impressive 26-hours of running time without mains electricity. Thus, everyone can be the architect of light in their own space, wherever it may be.

Gople's characteristic diffuser is made of plastic in order to withstand use across a wide spectrum of spaces and situations.

Every element is designed to guarantee excellent light quality with high efficiency and low energy consumption. Long running times unplugged (8-11-26 hours) go hand-in-hand with rapid recharging times.

The soft, diffused light emission can be adjusted to 3 different brightness settings to create different ambiances.

It is perfect for everyday lighting scenarios in personal spaces, but also for more social moments.

Minimalist and simple in its elegant shape, it becomes an ideal, flexible element for lighting bars and restaurants, where it enables an unconstrained vision for lighting scenarios and ambiances that can change freely in line with organisation of spaces.

It has no protection against contact with water but its lightweight and durable design means it can accompany us outdoors too.
